EDUCATION

Chennai Institute Of Technology (GPA: 8.63)
B.TECH in Computer Science and Business Systems
Jaya Matric Higher Secondary School

Sept 2024 – Apr 2028
(Cutoff: 193/200)

PROJECTS

WakeUpBuddy — *React Native, Convex.dev, Android manager*

[Link to Demo](#)

Engineered a real-time social alarm system with intelligent user matching and automated peer-calling, leveraging a scalable mobile architecture to enable low-latency interactions and improve wake-up accountability.

Mood Tracker App — *React.js, Node.js, MongoDB, Express.js*

[Link to Demo](#)

Developed a full-stack mood analytics platform with real-time data visualization, offline-first architecture, and a recommendation engine delivering personalized insights based on user behavior patterns.

Chat System — *React.js, Node.js, MongoDB, Express.js, Socket.io*

[Link to Demo](#)

Built a scalable real-time chat system using WebSockets, enabling low-latency messaging, efficient state synchronization, and concurrent user handling with a modular full-stack architecture.

EXPERIENCE

Full Stack Developer — **Bonton Software Pvt Ltd**

Developed and optimized modules for the Tamil Nadu Highway Patrol system, including hotspot and blind-spot detection, improving incident monitoring and response efficiency.

Tech Lead — **Asymmetric Club**

Led a team of 10 developers to build and deploy multiple full-stack applications, driving project execution, code quality, and collaborative development practices.

ACHIEVEMENTS & CERTIFICATIONS

E-Yantra 2024 Winner

Secured 1st place among 200+ teams across India and neighboring countries in IIT Bombay's e-Yantra competition for game design and system implementation.

Google AdMob Finalist 2025

Selected in top 30/250+ teams; built a real-time social alarm system (WakeUpBuddy) demonstrating scalable architecture and attracting early investor interest.

Certifications

- NPTEL — Internet of Things
- Cisco — Introduction to Networks
- HackerRank — Problem Solving (Basic & Intermediate)
- freeCodeCamp — DSA in JavaScript

VOLUNTEERING

Tech Lead — **Tech Fiesta**

Led the technical team to develop and deploy the symposium's digital infrastructure. Engineered a gamified reverse-coding challenge platform to drive participant engagement and problem-solving.

Workshop Organizer — **Null Chennai**

Conducted a hands-on cybersecurity workshop in collaboration with Null Chennai, delivering practical training on ethical hacking, privacy, and secure coding.

Tech Lead — **Hacksymmetric Hackathon**

Managed technical infrastructure and real-time support for a 48-hour hackathon, ensuring smooth event execution.

SKILLS

Languages	JavaScript, Python, SQL, C++
Technologies	React.js, Vue.js, Next.js, Node.js, Express.js, MongoDB, Websockets, ReactNative, TailwindCSS, PSQL
Tools	Git, Clerk, Convex, Postman, Firebase
